

Find Out if FirstNet Can **Simplify and Improve Your First-Responder Agency's Communications**

The FirstNet program is one-of-its-kind and has transformed public safety in the U.S. As one of very few members of the AT&T FirstNet Dealer Program, Firefly helps first responders leverage 21st century communication tools. Should you be one of them? Follow our two checklists below to find out:

How much do you know about FirstNet?

Q: Are you a first responder or does your organization work with first responder agencies? **Y/N**

A: The benefits of the FirstNet program solely apply to first responders and the agencies that support first responders.

Q: Are you aware of how AT&T's FirstNet Dealer Program helps first responders? **Y/N**

A: At a high level, it deploys, operates, maintains, and improves the first high-speed nationwide wireless broadband network dedicated to public safety agencies and first responders.

Q: Did you know that FirstNet provides industry solutions for first responder agencies in law enforcement, fire/rescue, healthcare, utilities, fleet transportation, and school transportation? **Y/N**

A: The FirstNet network is complemented by a suite of public-safety driven solutions that provide additional value to first responders.

Q: Are you aware of FirstNet's coverage of more than 2.7 million square miles of territory and support of more than 2.2 million connections spread over 16,000 first responder agencies and organizations? **Y/N**

A: All of this impressive growth has transpired in just 3 years since the program's inception in 2018.

Q: Did you know that FirstNet already covers more than 99% of the U.S. population? **Y/N**

A: And more is planned as the program expands to include rural and tribal areas.

Q: Are you aware of the first public safety spectrum – Band 14 – that provides a dedicated lane of connectivity for first responders? **Y/N**

A: This high-quality spectrum set aside by the U.S. government specifically for FirstNet is providing public safety with a dedicated lane of critical connectivity when needed.

Now find out if **FirstNet is right for you...**

Q: Do you think your organization should shore up critical communications needs? **Y/N**

A: If your current communications network causes delays, FirstNet provides a secure platform for first responders that allows them to get more information quickly.

Q: Are you a public agency that needs fleet and asset management solutions? **Y/N**

A: FirstNet specializes in providing fleet and asset management solutions.

Q: Could your organization use 21st century tools and technology that allows them to make faster and better decisions? **Y/N**

A: The latest technology and a solely dedicated spectrum band will boost your communications capabilities, which is what the FirstNet program is all about.

Q: Are you looking for a communication solution for your organization that can help your team get information more quickly and make faster and better decisions? **Y/N**

A: Firefly makes sure you get the upgraded technology your teams need to confidently make split-second decisions.

Q: Do your first responders need the latest phones and toughest-quality equipment tailored to their needs? **Y/N**

A: Firefly offers an expansive catalog of LTE devices, including purpose-built rugged units and the latest smart devices and tablets.

Q: Could your organization benefit from a more reliable, highly secure, and innovative public safety communications platform? **Y/N**

A: Firefly can provide the communications platform that all finely-tuned first responder agencies trust to gain accurate information that translates to quicker response times.

If you answered yes to most of these questions, your organization could benefit from a free consultation to identify areas where you can improve your communication and response times.
